Education

Bachelor of Computer Applications (BCA) 2023–2026

Institute of Technology and Management (ITM)

Affiliated to Hemvati Nandan Bahuguna Garhwal University (HNBGU), Uttarakhand, India

Higher Secondary Education (Class XII) 2023

Shree Tribhuwan Shanti Secondary School

Pokhara-31, Kaski, Nepal

GPA: 3.64/4.00

Secondary Education (SEE/Class X) 2021

Siddivinayak Boarding School

Pokhara-29, Kaski, Nepal

GPA: 4.00/4.00

Technical Skills

Languages: Python, SQL, R

Data Analysis: Excel, Pandas, NumPy, EDA

Visualization: Matplotlib, Seaborn

Machine Learning: Scikit-learn, Regression, Classification

Tools: Git, GitHub, Jupyter Notebook, VS Code

Projects

SmartFocus [GitHub](#)

Python, Flask, SQLite, OpenCV

- Built an intelligent study monitoring system to detect distractions in real time.
- Designed a focus scoring algorithm using activity tracking and idle detection.
- Integrated an alert system to improve productivity.
- Developed a dashboard to visualize study behavior and insights.

House Price Prediction (Kaggle Competition) [GitHub](#)

Python, Scikit-learn, XGBoost

- Participated in Kaggle's House Prices competition using 1,460+ training records.
- Performed data preprocessing, feature engineering, and missing value handling.
- Built regression models using Random Forest and XGBoost.
- Evaluated model performance using RMSLE and improved predictions.

Movie Recommender System [GitHub](#)

Python, Scikit-learn

- Developed a movie recommendation system using collaborative filtering.
- Implemented content-based filtering using TF-IDF and cosine similarity.
- Generated personalized movie recommendations based on user preferences.

Relevant Coursework

Data Structures, Database Management Systems (DBMS), Design and Analysis of Algorithms (DAA), Statistics, Machine Learning

Coding Profiles

🔗 [LeetCode](#) 🔗 [HackerRank](#)

Certifications [\(View All\)](#)

- Machine Learning – Kaggle
- Data Visualization – Kaggle
- Python for Data Science – IBM
- Data Fundamentals – IBM
